NIKOLAEV – ECO 2023-001  
FALL 2009

1. Enthusiastic professor. Great class.
2. Excellent professor – made the course very interesting (much more than the book). Always kept the mood light and class fun (I only fell asleep once). Liked the readings and would recommend to anyone.
3. Professor Nikolaev was awesome and very fair with his grading! Gives plenty of opportunities to enhance grade.
4. Best Bulgarian professor ever.
5. Nikolaev has been an excellent professor this semester. He made class fun while teaching us lessons about economics. Before this class, I wasn't interested in economics and now I love it! If he taught another class, I would definitely take it.
6. Professor Nikolaev is very attentive and cares for his students. He thoroughly explains the material and is very helpful in understanding your question.
7. He is a very good teacher but he is definitely sexist against women. I am very interested in the course material but rarely ever get to participate in discussions.
8. Professor Nikolaev made economics fun. I never thought this would happen. His demonstrations and real-world example help to amplify his lectures. The University of South Florida should consider itself lucky to have him.
9. This was by far my most enjoyable class. I learned a lot and he is the best teacher I've had so far. Looking forward to taking any other classes he teaches.
10. Professor Nikolaev is a great teacher who truly reaches out to his class and he helped me understand something I thought was impossible.
11. Best teacher I've had at USF. Uses creative ways to teach you concepts. Goes out of his way to stimulate students' interest. Only complaint is he doesn't teach macroeconomics.
12. Really fun and interesting class. I didn't think I was going to enjoy it as much. Great professor really cares about his students. Made class fun.

2. This is seriously the best class I have ever taken; not because of the material, but because of the instructor.

16. One of the best professors I've had since attending USF. He knows how to engage the students into the course material by offering different class activities.

17. Professor Nikolaev made learning fun. The use of games, etc. was a nice addition and broke up the material.
18. Professor Nikolaev is an excellent instructor. He cares very much for his students. Throughout the course he made sure students were involved in the learning process by playing economics games and giving ample examples. He kept my interest throughout the entire course and I will be recommending him to others.
19. Boris Nikolaev was a very good professor. He found a way to make the lectures entertaining as well as informative. He kept us interested by making us laugh and was very fair with grading and work assignments. Overall, a wonderful teacher and I hope to have him again.
20. Very good instructor; a little vague on assignments; a little unorganized with course material (I think this was due to the class being during summer). Overall, very fun class and it was noticeable that Professor Nikolaev wanted to make economics interesting and applicable to real life.
21. Great teacher. Very interactive. Made me enjoy the subject a lot.
22. A superb individual and outstanding instructor. Professor Nikolaev has stimulated my interest in economics, issues therein, and economic thinking. If I had the option to, I'd give him sixes.
23. This was a very interesting course. Ideas and concepts were clearly expressed. There were a lot of examples used that made concepts easy to grasp. The readings were helpful as well.
24. This is the best professor I had had! One of the coolest professors ever; was able to mix hands on fun activities with the whole class. I have never had more fun learning before. He inspired me in every way. He really cares. I hope and wish for every professor to be like Boris.
25. Great. Enjoyed the class. Lectures were always fun and exciting. Professor really understands the importance of keeping students attention. Overall, one of the best professors I have had at USF.
26. Loved the class. Didn't fall asleep. Learned a lot about how wasteful we are as an economy. Enjoyed the videos.
27. Highly ambitious for interactive learning. Good professor and energetic to facilitate economics with experience and knowledge.
28. He made class fun and entertaining. Very glad I took his class.
29. Good teacher. Really good at what he does. Everyone should get him as a teacher.

33. Great guy.
34. Great professor.
35. Very good teacher. First teacher I have had that actually interacted with the class. Made me really enjoy the subject and consider changing my major. Love this teacher.

36. I have never been so excited to go to a class and listen to what is being taught that day. Professor Nikolaev not only makes this course interesting and relevant, but he also challenges you to think. He considers his students and always makes room for improvement. He is an excellent professor. Thanks for all you do. I might change my major to economics.
37. Excellent teacher! One of the few teachers that truly does care about the students. One of the best teachers at USF.

8. Great professor. Really cares. Knowledgeable and one of the best I've had.
9. Awesome teacher. The only thing is don't spring extra assignment in the last minute.
10. He was a good professor who brought current topics into class. I like how he mixed current topics with the book (which was very dry).
11. One of the best teachers I've had. Made me think about the world around me and to question. He is still young too so he can only get better.
12. Great teacher. Made class fun and interesting.
13. Great professor!
14. The class was one of the more interesting courses I have taken at USF. Thanks for opening the world of economics to me.
15. My favorite class. Only challenge I had was due to my jammed schedule. I really need all the homework and assignments ahead for planning purposes.
16. Very intelligent professor! Wish every professor was like him.
17. Good effort in relating microeconomics to real life and incorporating relevant and recent economic events. Made class interesting with creative ideas. Excellent job and more personable than tenured professors I've had in the past would've been.
19. Boris Nikolaev is excellent instructor. Coming to class was not a chore. He made economics fun. He went above and beyond for every lesson. If his goal is to be a professor, then he will most definitely be an excellent one. I would continue to take his classes. I admire his initiative and effort.
20. Very good instructor because he used original methods to stimulate learning.

4. Awesome job. Best teacher ever!
5. I thought he was very good as an instructor. Showed us real life economics versus just looking at graphs all day.
6. Best professor I've had in a very long time!
7. Extremely good teacher who makes every effort to make sure his students do well. He includes activities and games that lighten up class and make a topic that is notoriously boring, fun. If he taught an upper level class, I would take it in a heartbeat. I will recommend this class to others.
8. Amazing professor. If more teachers taught like him, we would learn and understand more. Thanks for the great semester.
9. Great teacher. Makes class fun. Really knows content well. If I could, I would take the class all over again. Great course.
10. Professor Nikolaev is very enthusiastic with his teaching and makes it very easy for students to understand the concepts. I took this class three times and I finally understand.
11. I love this class! Always funny, always lighthearted. He could be a comedian. I love the games that he plays to demonstrate parts for extra credit. This honestly is the best class I've ever had!

NIKOLAEV – ECO 2023-002  
SPRING 2010

1. Good teacher, very funny. HOT!! But need to slow down and make information clearer.
2. Best economics professor! Cares about students! He makes the boring subject interesting.
3. Good class and professor! Would highly recommend him!
4. The only thing that I wish were the case about the course is the organization. The article presentations were scattered and inconsistent. But he is generous and cares about the students.
5. Well informed/educated, makes class interesting, fun and is very helpful to learning. Really great professor!
6. Very knowledgeable, great interest in the course. Knows the material well. Very humorous. Recommend the teacher for macroeconomics.
7. Best professor ever! Very well educated and I learned more than I expected to learn in an economics class.
8. Very enthusiastic professor. He really cares about his students. Provided the information very well, and makes it fun to go to class.
9. THANKS!
10. Awesome professor!
11. Thank you for the course! I appreciate the setup and the effect. You've been very helpful.
12. Great teacher! Really has a great style!
13. Awesome teacher and great person. Loves what he does unlike other teachers who shouldn't be teaching. Encourages students to try their best and goes out of his way to help them understand concepts. I would recommend this class to anyone who wants to really learn something beyond your exam questions. This is a great class. Only good things to say about Mr. Nikolaev!!!
14. Professor Nikolaev stimulates and interest in economics that few teachers are capable of. He cares about learning, not just telling students information and hoping they figure it out. Best economic teacher I've ever had. Best teacher I've had.
15. Great, great job! Loved the class.
16. Professor Nikolaev is the best professor at USF. He taught me more in a semester than I could have ever imagined. His course structure is set up to stimulate interest while helping the student understand complex ideas. I've learned not only difficult concepts but practical knowledge that I can use for the rest of my life. His class is amazing! He encourages students to learn beyond what's actually required for class. He's enthusiastic and actually loves his job. I would recommend this class to anyone who wants to learn more than memorizing questions for an exam and anyone who wants to have a blast doing it. Economics with Mr. Nikolaev gives you something to talk about and look forward to every time. You never know what he has prepared for the next class. You'll learn things you can utilize for the rest of your life because you learn while having fun which is the way it should always be. I

wish there were more professors that have such a passion for teaching as Mr. Nikolaev does. \*Only good things to say about this professor.\*
